PROFESSIONAL SUMMARY

Full Stack Developer with 3+ years of combined freelance and professional experience, and a BS in Computer Science (NUML, CGPA 3.63/4.00). Builds production web applications, SaaS platforms and REST/GraphQL APIs with React.js, Next.js, Node.js (Express/NestJS) and TypeScript, backed by PostgreSQL, MongoDB, MySQL, Redis, Supabase and Prisma. Delivered multi-tenant HR and hospital management SaaS products with role-based access control and automated reporting, an Ecommerce platform with Stripe payments and webhooks, and client websites on WordPress, Shopify and Webflow. Experienced in real-time features with WebSocket, third-party integrations, Docker and cloud deployment (Vercel, Railway), and Git-based CI/CD workflows. Takes work from requirements through to deployment.

TECHNICAL SKILLS

Frontend: JavaScript (ES6+), TypeScript, React.js, Next.js (App Router, SSR/SSG), jQuery, PHP, HTML5, CSS3, Responsive UI

Backend: Node.js, Express.js, NestJS, Laravel, REST & GraphQL APIs, WebSocket, Authentication & Role-Based Access Control

Databases & ORM: PostgreSQL, MySQL, MongoDB, Supabase, Firebase, Redis, Prisma

DevOps & Testing: Git, GitHub, Docker, Vercel, Railway, Jest, Postman

CMS & Websites: WordPress (WooCommerce, Elementor), Shopify (Liquid), Webflow (GSAP animations), Website Performance Optimization, Domain & Hosting Setup

WORK EXPERIENCE

Senior Web Developer, Digitsio Marketing *Aug 2026 – Present*

- Lead web application development for client and in-house projects, owning features from design through deployment.
- Collaborate with designers and developers on technical decisions, code reviews and delivery timelines.

Junior Web Developer, Cure Logics *Jul 2025 – Jul 2026*

- Built and shipped full stack features end to end with React.js, Next.js and NestJS in a fast-paced production environment.
- Designed and integrated RESTful APIs against PostgreSQL and Supabase, improving query response times and data reliability.
- Took part in code reviews, debugging and technical documentation using Git-based workflows.

Freelance Full Stack Developer, Fiverr *2021 – Present*

- Build full stack web applications for clients.
- Build, customize and maintain CMS websites on WordPress, WooCommerce, Shopify, Webflow and Wix, including custom themes and plugins.
- Optimize live sites for speed, performance and security, including WooCommerce catalog management.

Software Engineering Intern, NetSol *Jul 2022 – Sep 2022*

- Contributed to development tasks in a professional engineering team, gaining hands-on exposure to production workflows and coding standards.

KEY PROJECTS

https://lizzt.app/

- Built a full featured collaborative event management app with real time task checklists, cost tracking, shared file storage, and team messaging.

https://veylohr.com/

- Built a complete HR management SaaS platform featuring QR-scan attendance tracking, automated record and report emailing, an ATS with hiring and interview workflows, leave management, device management, shift scheduling, and role based access control across multiple companies and stores.

https://pakhims.com/

- Contributed to a hospital management SaaS platform covering online appointments, OPD token queues, IPD ward care, lab diagnostics, insurance panel tracking, employee management, and blood bank operations.

EDUCATION

Bachelor of Science in Computer Science *2021 – June 2025*

National University of Modern Languages (NUML), Lahore | CGPA 3.63 / 4.00
