PROFILE

Full-stack developer with 3+ years of experience building custom-coded web apps and SaaS platforms from scratch with React, Next.js, TypeScript, Node.js and NestJS, plus AI integration and SQL/NoSQL databases. Also delivers fast, CMS-based WordPress, Shopify and Webflow sites for freelance clients worldwide (4.9 rating, 50+ client reviews).

EXPERIENCE

Senior Web Developer | Digitsio Marketing

Aug 2026 – Present | Lahore

- Build and maintain client websites and web applications across WordPress, Shopify, Webflow and custom full-stack code.
- Own delivery end to end: requirements, development, performance optimisation, deployment and post-launch support.

Junior Web Developer | Cure Logics

Jul 2025 – Jul 2026 | Rahim Yar Khan

- Developed full-stack MERN applications, including the Veylohr HR platform and the Lizzt event app.
- Built REST APIs, authentication with role-based access control, and responsive React / Next.js interfaces.

Freelance Full-Stack & CMS Developer | Fiverr & Direct Clients

2021 – Present | Remote

- Delivered custom websites and web apps for international clients; communicates requirements, scope and timelines directly.
- Built and optimised WordPress, WooCommerce, Shopify and Webflow sites (speed, smooth-scroll/GSAP animation, mobile fixes).

Software Engineering Intern | NetSol

Jul 2022 – Sep 2022 | Lahore

- Worked alongside the engineering team on software development tasks as part of a summer internship.

SELECTED PROJECTS

Lizzt | Collaborative Event Management App

- Built a full-featured collaborative event management app with real-time task checklists, cost tracking, shared file storage, and team messaging.

Veylohr | HR Management SaaS Platform

- Built a complete HR management SaaS platform featuring QR-scan attendance tracking, automated record and report emailing, an ATS with hiring and interview workflows, leave management, device management, shift scheduling, and role-based access control across multiple companies and stores.

PakHIMS | Hospital Management SaaS Platform

- Contributed to a hospital management SaaS platform covering online appointments, OPD token queues, IPD ward care, lab diagnostics, insurance panel tracking, employee management, and blood bank operations.
