

HASEEB UR REHMAN

Full Stack Developer, MERN, Next.js & AI Integration

+92 3268795099 | haseebrehman3460@gmail.com | Portfolio: <https://haseeb-portfolio-drab.vercel.app> |
GitHub: <https://github.com/HasebRehman> | LinkedIn: <https://www.linkedin.com/in/haseebrehmanweb/>

PROFESSIONAL SUMMARY

Full stack developer specializing in SaaS products, working across React, Next.js, TypeScript, Node.js, and NestJS, with PostgreSQL, MongoDB, Supabase, Prisma, and Redis on the data layer. Hands-on with Docker, GraphQL/WebSocket for real-time APIs, Firebase, and AI integration using LLM APIs. Writes tested code with Jest, and uses AI-assisted tools like Cursor and Claude daily. Currently a Senior Web Developer at Digitsio Marketing, building on prior experience at Cure Logics, a Software Engineering internship at NetSol, and freelance full-stack development on Fiverr since 2021.

TECHNICAL SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3

Backend: Node.js, Express.js, NestJS, RESTful APIs, GraphQL, WebSocket

Data Layer: PostgreSQL, MongoDB, Supabase, Prisma, Redis

AI Integration: LLM APIs (OpenAI, Anthropic), prompt engineering, RAG pipelines, vector databases

Infrastructure & Services: Docker, Firebase, Vercel, Railway

Testing & Tools: Jest, Postman, Git, GitHub

AI Assisted Development: Cursor, Claude, Codex, Antigravity

WORK EXPERIENCE

Senior Web Developer, Digitsio Marketing

August 2026, Present

- Lead full stack web development for client and in house SaaS projects, taking ownership of features from architecture through deployment.
- Develop and integrate AI powered features into web applications, including LLM based workflows.
- Use AI assisted development tools such as Cursor and Claude daily to accelerate development and improve code quality.
- Collaborate with the wider team on technical decisions, code reviews, and delivery timelines.

Junior Web Developer, Cure Logics

Jul 2025, Jul 2026

- Built and shipped full stack features end to end using React.js, Next.js, and NestJS in a fast paced production environment.
- Designed and integrated RESTful APIs against PostgreSQL and Supabase, improving query response times and data reliability.
- Refactored code into type safe TypeScript and applied performance techniques such as lazy loading and code splitting.

Software Engineering Intern, NetSol

Jul 2022, Sep 2022

- Contributed to software development tasks in a professional engineering team environment, gaining hands on exposure to production workflows and coding standards.

Freelance Full Stack Developer, Fiverr

2021, Present

- Deliver full stack web development projects for clients on a freelance basis, covering frontend, backend, and CMS based solutions including WordPress, Shopify, and Webflow.

KEY PROJECTS

<https://lizzt.app/>

- Built a full featured collaborative event management app with real time task checklists, cost tracking, shared file storage, and team messaging.

<https://veylohr.com/>

- Built a complete HR management SaaS platform featuring QR-scan attendance tracking, automated record and report emailing, an ATS with hiring and interview workflows, leave management, device management, shift scheduling, and role-based access control across multiple companies and stores.

<https://pakhims.com/>

- Contributed to a hospital management SaaS platform covering online appointments, OPD token queues, IPD ward care, lab diagnostics, insurance panel tracking, employee management, and blood bank operations.

EDUCATION

Bachelor of Science in Computer Science

2021, June 2025

National University of Modern Languages (NUML), Lahore, CGPA 3.63 / 4.00
